

Guardian Legal are specialists in Asset and Estate Planning – we provide everything from simple Will Writing through to complex Trusts.

Our home consultations are always free of charge and without obligation and we have a no-nonsense, fixed-fee pricing structure which is often way below national average. Our costs are fully inclusive regardless of how complex your work becomes, and we do not add on fees and disbursements at the end.

Why Choose Us?

At Guardian Legal we pride ourselves in our top quality legal advice and work, that will meet your wishes and afford you and your loved ones essential protection for many years to come: often saving families a small fortune. Without preparing and planning for the future, assets and wealth are vulnerable and will not be distributed as you would perhaps wish, control can be lost and they could even be taken by the local authority – an outcome nobody wants to see. With careful planning we can help you and your family avoid this cost, stress and heartache, preserving all you have worked hard for.

Honest, Straightforward and Professional

We give straightforward, professional and impartial legal advice presented in an uncomplicated, easy-to-understand way. We always come to you so your family / friends can be present if you wish them to be. Our specialist consultant will present you with solutions tailored around your individual circumstances. Unlike some solicitors, our advice is always free of charge and we will visit you at home at any time of the day to suit you. We will never over-stay our welcome, and all our consultants carry photographic ID for added security and as formal identification.

We find general practising solicitors are not usually as experienced in our specialist field so only an expensive, city lawyer (of whom there are very few locally) will offer this type of advice and service: furthermore, many of our Trusts have been written solely for our use, and they cannot be sourced elsewhere - **a customised product unique to Guardian Legal.**

Whether you instruct Guardian Legal to prepare a basic Will or a multi faceted, complex Trust, rest assured your total satisfaction is our aim so sit back and let us take the stresses and strains out of preparing for the future.

NB: In accordance with the Data Protection Act 1988 we have a legal obligation to protect your information and we will NOT discuss your details or any aspect of your legal work with a third party without your prior written consent.
